

L-Arginine

98.5% Feed Grade

Product Description

L-Arginine has a variety of metabolic functions and is an essential amino acid for mammals, poultry, and fish. It is recognized as a key component of protein synthesis and helps improve blood circulation.

Chemical Properties

- Molecular formula: C₆H₁₄N₄O₂
- Molecular weight: 174.2 g/mol
- pH value: 10.5~12.0

Commercial Guarantee

Arginine	Min. 98.5%
Moisture	Max. 1.0%

We hereby certify that the L-Arginine referenced in this document was analyzed and approved by the Department of Quality Management.

General Specifications

Appearance	White crystals or crystalline powder
Loss on drying	Less than 1.0%
Residue on ignition	Less than 1.0%
Heavy metals	Less than 10 ppm
Arsenic (As)	Less than 2 ppm

Application & Function

- **Animal feed**
 - Boosts immune system
 - Enhances growth performance
 - Increases the litter size
- **Aquaculture**
 - Improves weight gain

Quality Assurance

- ISO 9001
- FAMI-QS certificates
- HALAL, KOSHER for food grade
- End-to-end quality control management throughout the fermentation process

Storage & Stability

- **Storage:** Store in well-closed containers at room temperature
- **Shelf-life:** Product is stable for at least 3 years if stored under recommended conditions.

Packaging & Delivery

- 25kg net in a paper bag
- Our professional export agents ship product anywhere in the world. Please call us for the answers to any shipping questions you may have.
