

L-Lysine sulphate 70% Feed Grade

Product Description

L-Lysine is an essential amino acid for animal growth. It cannot be synthesized in sufficient quantities in the body; Therefore, it must be acquired from external sources.

SEWON L-Lysine Sulphate is a type of nutritional supplement made from natural raw materials, including corn-derived glucose. It also contains other biologically available substances which enhance its nutritive value. It is widely used in the feed industry.

Chemical Properties

- Chemical formula : $(\text{C}_6\text{H}_{14}\text{N}_2\text{O}_2)_2\text{H}_2\text{SO}_4$
- Molecular weight : 390.43g/mol

Commercial Guarantee

Lysine base	Min. 55.0%
Moisture	Max. 4.0%
Purity	Min. 70.0%

We hereby certify that the L-Lysine Sulphate referenced in this document was analyzed and approved by the Department of Quality Management.

Quality Assurance

- ISO 9001, FSSC 22000
- FAMI-QS certificates
- End-to-end quality control management throughout the fermentation process

General Specifications

Appearance	Brown colored granular
Loss on drying	Less than 4.0%
Heavy metals	Less than 30 ppm
Arsenic	Less than 2 ppm

Storage & Stability

- **Storage:** Store in a cool and dry place in unopened original package
- **Shelf-life:** 2 years from the date of manufacture.

Packaging & Delivery

- 25kg net in a woven bag
- 800kg net in a big bag

Our professional export agents ship product anywhere in the world. Please call us for the answers to any shipping questions you may have.

Daesang Solution Service

Over the past several decades, the Daesang Corporation has evolved into a leading international provider of customized services in the animal nutrition field. For any inquiries about our products and services, please contact us via any of the means shown below.
